Safety

Before first use please familiarize yourself with proper usage of this device. Keep these operating instructions for future reference.

Please note the following safety advice to avoid malfunctions, damage or physical injury:

- Never spill liquid of any kind on the video display and the main body of the unit.
- Do not immerse the camera and monitor in water. Store it in a dry place.
- The image head and the cable are water resistant when the unit is fully assembled.
- Do not use the camera if condensation forms inside the lens. Let the water evaporate before use.
- Turn off the unit when not in use.
- Remove the batteries before storing the unit for a long period of time.
- Use only the size and type of battery specified.
- Be sure to install the batteries with the correct polarity as indicated.

Features

- Camera and video functions save high resolution images and video
- Comfortable pistol grip design
- High resolution 2.5" color LCD monitor
- 9mm waterproof (IP67) camera head
- Gooseneck cable retains configured shape
