Fire Extinguisher Cabinet, as manufactured by Cato, Inc., with body and frame injection molded of red or white virgin high-impact crystal polystyrene of .110 wall thickness with ultra-violet inhibitors, virgin acrylic Plaskolite® panel of .080 thickness, cylinder lock and key, polypropylene plastic injected molded hammer with flexible torsion, ribbed grip surface, and clear nylon-jacketed stainless steel mechanical cable.

- 105-5 Chief is for 5 or 2 1/2 lb. extinguisher
- 105-10 Chief is for 10 lb. extinguisher
- 105-20 Chief is for 20 lb. extinguisher

- Red bodies shipped with red hammer
- White bodies shipped with white hammer

CATO Chief - Second To None

Cato has been providing the quality Chief fire extinguisher cabinets since 1984. The Chief cabinets protect the extinguisher from weather and any ambient conditions that might jeopardize its use. The elimination of metal reduces the chance of personal injuries and reduces the possibilities of product liability insurance claims. The unique design of the Chief cabinets also reduces vandalism and theft.

The Cato Customizer Panel (U.S. Patent Pending)

Customizer 10575
105-5 Panel

These safe, long-lasting, UV-resistant acrylic panels will fit most CATO Chief cabinets, but, if needed, can be trimmed to fit most other cabinets as well.

Specifications:

Fire Extinguisher Cabinet, as manufactured by Cato, Inc., with body and frame injection molded of red or white virgin high-impact crystal polystyrene of .110 wall thickness with ultra-violet inhibitors, virgin acrylic Plaskolite® panel of .080 thickness, cylinder lock and key, polypropylene plastic injected molded hammer with flexible torsion, ribbed grip surface, and clear nylon-jacketed stainless steel mechanical cable.

- No more having to carry glass in your truck.
- No more cutting yourself on glass.

Instructions:

Customizer 11075
105-10 Panel

1. Simply measure the size of the cabinet break glass window slot.
2. Carefully remove the blue film backing. Place panel carefully on a flat, clean surface and mark the scores to be trimmed.
3. Run a box cutter or similar tool lightly along the score you want to trim. Do this two or three times.
4. Place a pair of needle nose pliers or your hands on the outside edge of the score you want to trim and break off the unneeded portion.

Dimensions:

Part#	Description	Dimensions
10575	105-5 Panel	18 3/4" x 7 5/8"
11075	105-10 Panel	22 5/8" x 8 5/8"
12075	105-20 Panel	27 3/4" x 10 5/8"
