

Anti-Impact Glove Liner

Utilizing Visco-Elastic Polymer (VEP) Padding Offers Impact and Shock Palm Protection 'The Original' Design from IMPACTO®

- Made of 4-way stretch polycotton Lycra material offering optimum breathability and comfort
- Contoured VEP 1/8" palm padding provides excellent protection from impact and shock
- Fingerless style leaves fingers free for tactile feedback and mobility
- Worn underneath work glove to optimize durability
- Other Variations Available:
 - #501-10 - with suede leather cover
 - #501-20 - and grain leather cover
 - #502-00 - with pad between thumb & index finger
 - #601-00 - full finger with pad in palm & fingers
 - #703-00 - with grain leather wrist support
 - #712-02 - full finger with wrist support

Model #501-00

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003

General requirements for gloves
