Deluxe Winter Goat-Grain Driver with WaterStop™/Oilbloc™ and Double Weight Thinsulate™ Liner

#378GOBDTK

**3M**  
**Thinsulate™**  
INSULATION

**-30°C** ❄️

With smart styling and design, this drivers-style, goat-grain leather glove is napped poly jersey and G200 Thinsulate™ lined; that is double the weight of the lining in our standard winter drivers gloves. Yet glove is still dexterous. Fingers are fully sock lined. The lining wraps 360 degrees around each finger, with no insulations gaps. Knitwrist turtleneck cuff extension helps lock in warmth.

The brown goatskin hides dirt and is also treated with Superior's own Oilbloc™ treatment for exceptional oil repellency. Oil simply won't soak through, not hours—or even days—after being dropped onto leather. (Untreated leather absorbs oils and liquids within seconds of contact.) Because oil can't penetrate, gloves are highly stain resistant, withstand contamination, they provide greater safety. Waterstop™ treated leather for excellent water, oil, and stain-repellent properties.

Set-in keystone thumb for greater comfort. Elasticized backs for a snug fit.
