

SAFETY EYEWEAR

Mostly from AEARO, our eyewear selection gives you great comfort and unequalled visibility. Depending on your type of work, you have different choices;

- **Clear lens**
(Protection against impacts)
- **Dark lens**
(Protection against sun and/or intense light from welding).
- **Watertight protection**
(Protection against liquids and dusts).
- **Face shield protection**
(Protection for your face and eyes).

FACESHIELDS PROTECTOR

3M face shields are used for face protection. However, remember that security glasses “CSA approved” are required with visors in order to give your eyes the proper protection.

CODE	DESCRIPTION
YPH24	Aluminum visor helmet holder 3M
YPH8	Deluxe faceshield headgear, ratchet adjustment

FACESHIELD HEADGEAR CHARACTERISTICS

- * High strength thermoplastic crown, high temperatures and impact resistant.
- * No snaps, bands or cams.
- * Visors are moulded to fit headgear’s curves.
Resulting in an excellent optic quality.
- * Soft vinyl band.
- * Easy window replacement.
- * Refer to next page for your choice of visor.

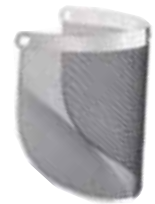

YVP96

YVP96B

YVP96CAL

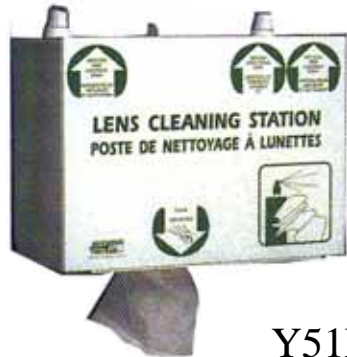

YV96M

These visors are compatible with 3M headgear only.

CODE	DESCRIPTION

YV96M	Metal mesh visor (24 meshes), 9 in. X 14.5 in. .080 in. thickness

LENS CLEANING STATIONS & PRODUCTS

Optimal performance of ocular and facial protection depends on appropriate cleaning. Sylprotec strongly recommends the use of cleaning stations and products.

Y51M

Cabinet including 1 pack of 280 tissues (code Y320), 2 sprays and 2 - 500 ml bottles of cleaning solution. Made of steel this cabinet is lockable. Top opening for used tissues disposal. Dimension 32 cm X 25 cm X 14 cm.

Y320

Y320 paper is ultra strong and resistant. When wet, it is as soft as paper tissues. Won't leave residue and won't scratch plastic or polycarbonate. Size: 11.4 cm X 21.5 cm. 280 sheets per pack, 30 pack per box.

Y51P: 500 ml

Y51G: 4 liters

Anti-fog and anti-static LENS CLEANER helps get rid of the static which attracts dusts and debris on lens. Spray bottles are sold separately. Choice of container; 500 ml bottle or 4 litres refill bottle.

Y51J

Complete station for glass or plastic lens cleaning. This long lasting station contains 1500 tissues, a 6 oz. bottle of cleaning solution. Humidity resistant packing which assure a long durability. At only 3 1/4 in. of the wall, its profile is narrow and compact. This station is completely disposable. Avoids separate inventory of tissues and solutions.
