

Mostly build up of disposable clothing Sylprotec's variety of products is tailored for long lasting of occasional operations.

Depending on your selection, these clothes will protect you from oil, acid, caustics, heat, cold, liquid and even flame.

This showcase is only a part of the available collection offered by Sylprotec.

# DISPOSABLE COVERALLS

V50

Disposable coveralls manufactured from polypropylene. This combination zipper front, wrists and ankles with elastic closures and a hood with elastic strips. Ideal for dusty work.

V50	Disposable blue polypropylene coveralls, box of 50 units	M to XXXL
-----	--	-----------

Northgen pro blue coverall large(20), The North Gen Pro Coverall is made from a unique combination of nonwoven fabrics and meets with CE Type 5 & 6 protection which means that it is resistant to noxious dust and splash. The fabric is breathable and therefore very comfortable to wear even for long periods of time. The North Gen Pro Coverall is ideal for a wide range of applications and has been designed to be both practical and comfortable with a 2 way zip, storm flap and a generous cut. CE Type 5 & 6 for noxious dust and splash. With knitted cuffs to improve interface with glove. Elastic ankles and waist to reduce inward contaminations. Hood and enclosed neck to prevent inward contamination. Silicon free components to prevent product contamination. Individually wrapped, sold in box 20. Approved for the handling of asbestos.

V35596

V35596	Disposable North Gen pro coverall type 5& 6, box of 20 units	S to XXXL
--------	--	-----------

V4530

The 4530 protective coverall from 3M is disposable safety work wear made of lightweight, breathable polypropylene with flame resistance. Designed to be worn over primary flame resistant garments, it helps provide protection against dusts and light liquid splashes.

V4530	Disposable 3M coverall with flame resistance, box of 25 units	S to XXXL
-------	---	-----------

# TYVEK DISPOSABLE COVERALLS

The Tyvek is a unique fabric with Dupont. The penetration-resistant, it is highly effective to repel most types of particles in suspension in the air.

The Tyvek is strong and durable, so it resists abrasion, puncture and tears. It is comfortable to wear in addition to being flexible and economical.
